PROFILE

Full-Stack Software Engineer with 4+ years designing, building, and deploying scalable web, mobile, and AI systems for government and enterprise clients. I own features end to end — from database and API design through to UI and deployment. My work powers digital platforms used by **60+ local authorities** across Zimbabwe.

EXPERIENCE

Software Developer

2021 – Present

LADS Africa · Harare, Zimbabwe

- Built and maintained local-authority platforms now used by **60+ councils**, spanning procurement, licensing, CRM, and financials.
- Worked in a 15+ engineer team designing scalable ERP features, owning modules from database schema to UI.
- Developed Laravel & Django backends integrated with React front-ends over well-structured REST APIs.
- Integrated ZIMRA fiscalization and built asynchronous, queue-based report generation with multi-format export.
- Led feature deployments and drove debugging, performance optimization, and technical documentation.
